Central Otago Trails

TRAILS - GRADES 1, 2 & 3

A bit like a ski resort, trails are graded based on distance and difficulty to help visitors choose the best trail for their ability and fitness.

Grade 1: Easiest

Suitable for novice riders & families seeking an easy, relaxing ride. These off-road trails have smooth surfaces and are wide with very gentle inclines.

Grade 2: Easy (for confident riders)

Suitable for more confident riders. A multi-gear bike with knobby tyres is recommended. Grade 2 trails are likely to be longer or have more gentle climbs than a grade 1 trail, but the trail surface will be wide and smooth. Moderate fitness and some experience and cycling confidence is recommended.

Grade 3: Intermediate

Only suitable for experienced, advanced cyclists with good fitness levels. These trails are generally not suitable for children under 12 years old. Trails can be narrow including hills, steep drop-offs to the side of the track and small river crossings. The trail surface may be muddy or loose with obstacles like rocks or tree roots.

Lake Dunstan Trail: Grade 1-3

Otago Central Rail Trail: Grade 1
